

COPLEY DATA CENTRE (AREA 3)

JIM SOUPER

This is very much a personal landmark. Having joined the Halifax Building Society in 1987, I moved to the Copley site in the early 1990s. The building is due for closure in 2025.

While there are more prominent landmarks – the data centre lies below the Wainhouse Tower – its length and modernity stand out in the landscape along Wakefield Road.

The images here were made from Wakefield Road (3 images), Hollas Lane (with the Wainhouse Tower above) and Norland.
